

LRGait Dataset Usage Agreement (for Research Purpose Only)

1. Dataset Overview

The LRGait Dataset is a multimodal dataset for research on long-range and cross-distance gait recognition. It contains synchronized RGB and LiDAR data from real human subjects with blurred facial regions to ensure privacy.

2. License Type

This dataset is distributed under the Creative Commons Attribution-NonCommercial 4.0 International License (CC BY-NC 4.0) with additional restrictions below.

3. Terms of Use

1. Research-Only: Use only for non-commercial scientific research and education.
2. No Redistribution: Do not redistribute or re-host the dataset.
3. No Republishing: Modified or derived datasets may not be released.
4. Citation: Publications must cite the AAAI 2026 paper associated with LRGait.
5. Ethics: Do not attempt to de-anonymize subjects.
6. Disclaimer: Provided “as is” without warranty.

4. Access Procedure

The dataset will be hosted on Google Drive. Access requires signing this agreement and contacting the authors.

5. Contact Information

For dataset requests or inquiries:
Email: akawen@stu.xmu.edu.cn

6. License Notice

Licensed under CC BY-NC 4.0: <https://creativecommons.org/licenses/by-nc/4.0/>
© 2025 LRGait Authors. All Rights Reserved.

Agreement and Signature

By signing below, I confirm that I have read, understood, and agreed to the above terms for the use of the LRGait Dataset.
